Re: Docket 2009-489-E - Application of South Carolina Electric & Gas Company
for Increases and Adjustments in Electric Rate Schedules and Tariffs

To the Members of the Public Service Commission:

I spoke at the public hearing on the above docket at the April 27 hearing in Charleston. At that time, I mentioned that I had a petition I wished to submit to the committee, bearing signatures of SCE&G customers who opposed the rate hike. I was told I could continue to collect signatures and present it to the commission later, as long as it reached the commission prior to its final hearing date. The petition is presented in two formats; signatures collected via the petition presented on the Internet and via signatures presented in 'hard copy.' Due to technical difficulties beyond my control there are a few (very few) duplicated signatures on the electronic version, but I believe at least 1200 signatures have been collected. I will be e-mailing these materials as well as sending everything by hard copy.

Although the rate hike has been reduced since SCE&G made its original request, the signers of this petition all request that no rate hike be given to SCE&G, in light of the public protest, current economic conditions, and SCE&G's failure to provide a need for the increase beyond and increase in dividends for its stockholders.

Sincerely,

A handwritten signature in cursive script, appearing to read "Sandra Burley".

SAY NO TO SCEG'S RATE HIKE!

PETITION REGARDING RATE HIKE FOR SCE&G

We, the undersigned, ask the South Carolina Regulatory Commission to **DENY** SCE&G's rate hike of nearly 10%. It is not sufficient that the hike be reduced - it must be denied entirely. The signers of this petition protest this rate hike and request that it be denied.

In comparison to the coops around the state, SCE&G provides little to their customers, including good customer service. As other power companies have lowered rates SCE&G, despite their profits, have not lowered their rates. This request must be denied.

Stop This Madness!!!

I can't afford a hike in prices... I can barely afford what we are paying now.

I understand the economy is tanking, but how is it that SCE&G has to raise their rates when other electric companies are decreasing theirs? Especially when you consider the customer base!

Please stop this in this time of economic upheaval

100% agree

SCANA is in this to make money at a time when our community is vulnerable from the downward economy. The last hike nearly bankrupted me. A 10% hike would ruin me.

I do not support the rate increase.

MY WHOLE FAMILY OPPOSES THE RATE INCREASE !!

No more rate increase!!
 No more Tax increases!!

I totally disagree with this rate hike.

No inflation = no increase

If SCF&G wants to increase rates any further, then it's customers should be given the opportunity to switch their business to nearby electric companies which are regulated for the benefit of their customers, not their shareholders.

Please don't do this.....no increase.

10% increase is most equitable

A rate increase is illegal

No rate increase is necessary
 We do not require of this rate increase

We pay enough for the use of power and gas. To pay them another rate hike, especially right now with the economy the way it is, is robbery.

My electric bill is already unaffordable, my house is 2,300 square feet and my highest bill last summer was just under \$300. The house was built to "Green" standards specifications and I use compact, solar, low and CFL bulbs wherever possible.

Please do not raise the electric rate any higher, not high enough as they are.

Before you raise my rates by 10% let me see the
EXrcutives take a 5% pay cut
Please DON'T raise our rates now!

With the economy and our citizens in such dire financial
states noe WE (YOU) can't afford a rate increase like
this. Please reconsider!

Electric is over priced at present. We pay a higher rate
than neighboring communities. THE RATES ARE
CAUSING FINANCIAL HARDSHIP..

NO INCREASE.

Corporate greed raises its ugly head yet again. Please,
please stop it now.

We have suffered enough. This rate hike may cause
me to lose my house. SCE&G will have forced another
family to the street

Utilities have the HIGHEST industry wage rates by far. They also have one highest benefit costs, and you guessed, lowest employee turnover rates. One would have to be crazy to quite one of these jobs. Annual average weekly rate- 2008, \$1358..Yikes that is the average of ALL workers! Food service is around \$276/week. Source (BLS QCEW). There are three main reasons for a rate hike. One, transfer payments from businesses to homeowners since typically business subsidize homeowners, (this can be legitimate (but usually not) as a result of a change in industry mix- textile mills shutting down). Two, financial structural payment adjustments, i.e. build a new plant (Cayce), purchases, buy-outs, bosses golden parachute, etc) which then costs more to finance- so the need to pass on finance expense. Note: financial institutions are one of the top three partners (silent vender) of utilities. Third, increase rates as a result of increased costs, likely a result of poor cost control. Remember most raw material costs have decreased over this time period, therefore there is no reasonable explanation for an increase.

Please deny the raise in rates hike for SCE&G.

Greed is a terrible thing.

We can hardly afford our utility bills as they are now.

SCE&G IS GARBAGE!
 It's expensive enough already.
 No rate increase.

Can we join another electric company. Some people can not afford this. Sce&G get more Greedy and we need to Put a stop to it.

NO NO No!!! not fair to hike it!!!

If SCE&G did not pay for lunches for their linemen, buy SOOOOOOO many cars for their employees, not to mention the gas to operate these cars, may be we would not need a rate increase.
 Disagree with any type of rate hike at this time!
 Thei rate hike is unreasonable.
 Deny the rate increase.

With SCE&G giving large bonuses to shareholders, and with the state of the economy and high unemployment, I feel a rate increase is not justified at this time.

NO MORE RATE HIKES FOR NOTHING.
 This proposed rate hike is ludicrous!!! We are in the middle of a recession. Please do not grant this awful rate hike!

Please deny the rate increase.

With consideration of the above, enough is enough.
Please stop the increase.

Ridiculous...

I am against SCE&G's proposed rate increase!
I feel the rate increase is excessive.
We already pay enough for electric. At this rate, I am
definitely going to look more into solar energy.

There can be no justification for this size of an
increase, especially now when the economy is so bad.

Too many past rate hikes.

SCE&G is a monopoly. It is unfair because we have
NO choice.

Retired veteran, fixed income additional expense not
welcomed. Need I say more. Deny this rate increase.

This increase is totally out of line...particularly so as we,
the poor benighted customer, have little or no recourse
to this callous abuse of our dependence upon
you...SCANA.

Corporate profits are a sign of a healthy economy:
Corporate greed never is anything but that!
I protest this rate increase not because the service is
bad but because my husband and I are on a fixed
income. I wonder when they were proposing this
increase if they considered the seniors.

Power costs are already way too high. My power bill currently is 30% higher than a year ago for the same usage.

Enough is enough. Stop passing the cost on to the customers when your executives are making oodles of bucks.

In this economy - BAD idea to hike rates as much as 10%. That is obscene.

Wrong time to impose higher costs on customers. Please do not allow this increase.

MY INCOME IS DOWN, EXPENSES AND HEALTH INSURANCE ARE WAY UP. THIS IS NOT THE TIME FOR SUCH A HUGE RATE INCREASE!

Too much in this economy
This increase is eorbitant in these difficult economic times
Please stop this madness. In this time of unemployment and economic woes this is the last thing we need.

Outrageous.

Enough is enough!

I am opposed to any rate hikes for SCE&G at this time due to the economic down turn and lack of increases in pay to cover all the fees, taxes and other increases that keep coming down the pike.

SCE&G is always telling us to conserve energy. When we do, they request a rate increase to cover the lost revenue on our reduced usage. This rate request should be DENIED!!!!

I protest this rate hike and demand that it be denied. In this economy and no jobs...I cannot afford a rate hike.

It is time to stop passing on the cost of doing business to the customers. The customers are being squeezed from every direction. It is time for this entity to take responsibility itself and not just pass on the cost.

In this time of economic turmoil it is not the time to gouge the customer. You are a monopoly and have a moral and ethical obligation to practice self restraint.

In this time of economic turmoil it is not the time to gouge the customer. You are a monopoly and have a moral and ethical obligation to practice self restraint.

My electric bill is already very difficult to manage, and we are quite conservative w/ our heating and cooling needs. I can't imagine how an increase of this size is necessary to this company. □

Unnecessary and inappropriate at this time.

I oppose the rate hike especially in LIGHT of subsidized customers.
